

\$0

Free forever — no card, no contract

A no-procurement starting point AllCore clients can adopt today.

5,000

Emails per month, included

Fits a 100-employee org's internal-comms volume with room to grow.

6M

Employees reached monthly on Broadcast

The same platform reaching nearly six million employees today.

✓ Purpose-built internal email

Drag-and-drop builder pre-tested on 60+ email clients — no broken layouts in Outlook or Gmail. Templates, retargeting, and translation in 133 languages included. Sending speed of 25,000 emails/minute.

✓ Audience Manager without IT tickets

Live segmentation by role, location, or department. HRIS sync (Workday, ADP, Paycor, Active Directory), CSV upload, or rule-based segments — the client owns audience targeting without putting another ticket on the MSP queue.

✓ Real read analytics + pulse surveys

Open rates, click data, and timestamped read receipts on every blast — the metrics nobody gets from Outlook or Gmail. Embedded pulse surveys and one-click acknowledgments make it easy to show comms are landing.

✓ IT-grade security at \$0

SOC 2 Type II, GDPR, CCPA, WCAG 2.1 AA. AES-256 at rest, TLS 1.2+ in transit, OWASP-aligned scanning. SSO (Okta, Azure AD, Google Workspace) available — an IT partner can recommend Broadcast without an architecture review.

"A free, secure, purpose-built tool you can hand AllCore clients on day one — with a real upgrade path when complexity shows up."

— The CerkI x AllCore partnership thesis

Book a partnership call

Walk through Foundations, map it to AllCore's client base, and leave with the materials to introduce it. Marc Fregoe handles partnership intros — book at meetings.hubspot.com/marc-fregoe/time-with-marc.

Free

Foundations forever — no card, no contract, no setup fees

Everything in this brief is available at \$0 today. The call is the bridge to a first AllCore client rollout.
