

Crises, mergers, layoffs — the moments your people most need to hear from you are the moments your channels fail. Foundations gives you the precision, control, and reach internal comms demands when stakes are highest.

✓ **Audience Manager**

Segment employees by role, location, department, or tenure — no IT ticket required. The right message reaches the right team in the moment.

✓ **Drag-and-Drop Builder**

Send branded, responsive blasts in minutes. No HTML, no design help. Go from urgent decision to inbox in the time the room takes to react.

✓ **Pre-tested Templates**

60+ email clients tested. Your message renders correctly in Outlook, Gmail, and mobile — no broken layouts when visibility matters most.

✓ **Pulse Surveys & Acknowledgments**

Embed surveys and timestamped read receipts in every blast. Know exactly who acknowledged the crisis update — and who didn't.

✓ **133-Language Translation**

Translate blasts into 133 languages with one click. Reach distributed and frontline teams in their language when context is hardest to convey.

✓ **Email Analytics**

Opens, clicks, and engagement by segment. See which crisis messages landed and which got missed — in real time, not in retrospect.

Start free with Foundations POWERED BY CERKL

Forever-free internal email built for the moments your team can't afford a workaround. **No credit card. No setup call. No IT lift.** Create your account and send the next blast yourself.

40%

Engaged employees have up to 40% lower turnover

Email that lands when it matters most is the difference between a steady team and a turnover spike.
